Physics of the Earth and Planetary Interiors, 46 (1987) 400–402
Elsevier Science Publishers B.V., Amsterdam – Printed in The Netherlands

CONTENTS VOLUME 46, 1987

Special Issue: Recent Developments in Rock Magnetism
Editors: H. Soffel, N. Petersen and V. Kropacek

Contents vi

Preface viii

Research Papers

Changes in TRM and ARM in a basalt due to laboratory heating
M. Kono (Tokyo, Japan) 1

A kinematic model of TRM acquisition in multidomain magnetite
E. McClelland (Leeds, Gt. Britain) and N. Sugiura (Mississauga, Ont., Canada) 9

Two types of chemical remanent magnetization during the oxidation of magnetite
F. Heider and D.J. Dunlop (Toronto, Ont., Canada) 24

Experimental study of chemical and crystallization remanent magnetizations in magnetite
T.K.T. Nguyen and D.M. Pechersky (Moscow, U.S.S.R.) 46

On the physics of acquisition of post-depositional remanent magnetization
V.P. Shcherbakov and V.V. Shcherbakova (Moscow, U.S.S.R.) 64

The dependence of weak field susceptibility on applied magnetic field
G.M. Smith and S.K. Banerjee (Minnesota, MN, U.S.A.) 71

Magnetic hysteresis properties and anhysteretic remanent magnetization of spherical Fe_3O_4 particles in the grain size range 60–160 nm
E. Schmidbauer and N. Schembera (München, F.R.G.) 77

Magnetic hysteresis properties of fine particle titanomagnetites precipitated in a silicate matrix
H.-U. Worm and H. Markert (Bayreuth, F.R.G.) 84

Comparison of the hysteresis characteristics of synthetic samples with different magnetite and haematite contents
H. Mauritsch, M. Becke (Leoben, Austria), V. Kropáček, T. Zelinka and P. Hejda (Prague, Czechoslovakia) 93

Temperature dependence of hysteresis in 0.04–0.22 μm magnetites and implications for domain structure
D.J. Dunlop (Toronto, Canada) 100

Domain observations of titanomagnetities during hysteresis at elevated temperatures and thermal cycling
M. Metcalf and M. Fuller (Santa Barbara, CA, U.S.A.) 120

Domain pattern observations in rock magnetism: progress and problems
S.L. Halgedahl (Palisades, NY, U.S.A.) 127

Discrepancies between experimental observations in natural and synthetic samples
S.A. Vincenz (St. Louis, MO, U.S.A.) 164

Towards resolving the inconsistencies in characteristic physical properties of synthetic titanomaghemites
B.M. Moskowitz (Princeton, NJ, U.S.A.) 173

Physics of the Earth and Planetary Interiors, 46 (1987) 400–402
Elsevier Science Publishers B.V., Amsterdam – Printed in The Netherlands

H. Mauritsch, M. Becke (Leoben, Austria), V. Kropáček, T. Zelinka and P. Hejda (Prague, Czechoslovakia) 93

Temperature dependence of hysteresis in 0.04–0.22 μm magnetites and implications for domain structure
D.J. Dunlop (Toronto, Canada) 100

Domain observations of titanomagnetities during hysteresis at elevated temperatures and thermal cycling
M. Metcalf and M. Fuller (Santa Barbara, CA, U.S.A.) 120

Domain pattern observations in rock magnetism: progress and problems
S.L. Halgedahl (Palisades, NY, U.S.A.) 127

Discrepancies between experimental observations in natural and synthetic samples
S.A. Vincenz (St. Louis, MO, U.S.A.) 164

Towards resolving the inconsistencies in characteristic physical properties of synthetic titanomaghemites
B.M. Moskowitz (Princeton, NJ, U.S.A.) 173

Inversion of titanomaghemites
Ö. Özdemir (Mississauga, Canada) 184
Observation of shrinkage cracks in ocean floor titanomagnetites
N. Petersen (Munich, F.R.G.) and H. Vali (Garching, F.R.G.) 197
Consequences of the maghemitization on the magnetic properties of submarine basalts: synthesis of previous works and results concerning basement rocks from mainly D.S.D.P. Legs 51 and 52
B.M. Smith (Saint-Maur-des-Fossés, France) 206
A contribution to the magnetic properties of natural cobaltite
M. Krs (Barrandov, Czechoslovakia) and V. Kropáček (Prague, Czechoslovakia) 227
Stress anisotropy in Ti-rich titanomagnetites
E. Appel (München, F.R.G.) 233
The vibrating-sample magnetometer and Preisach diagram
T. Zelinka, P. Hejda and V. Kropáček (Prague, Czechoslovakia) 241
The magnetic properties of an ironcrust in SE Belgium and synthetic Mn-substituted goethites
J.J. Hus (Dourbes, Belgium) and W. Stiers (Leuven, Belgium) 247
A pulsed field technique for the study of magnetic grains in rocks
C. Radhakrishnamurty and S.D. Likhite (Bombay, India) 259
The preparation of dispersed titanomagnetite particles by the glass–ceramic method
H.-U. Worm and H. Markert (Bayreuth, F.R.G.) 263
Fe–Ti oxide mineralogy and the origin of normal and reverse remanent magnetization in dacitic pumice blocks from Mt. Shasta, California
C.A. Lawson, G.L. Nord Jr. (Reston, VA, U.S.A.) and D.E. Champion (Menlo Park, CA, U.S.A.) 270
Biogenic magnetite as a primary remanence carrier in limestone deposits
S.-B.R. Chang, J.L. Kirschvink and J.F. Stolz (Pasadena, CA, U.S.A.) 289

Letter Section
Centroid-moment tensor solutions for July–September 1986
A.M. Dziewonski, G. Ekström, J.E. Franzen and J.H. Woodhouse (Cambridge, MA, U.S.A.) 305

Research Papers
Global seismicity of 1978: centroid-moment tensor solutions for 512 earthquakes
A.M. Dziewonski, G. Ekström, J.E. Franzen and J.H. Woodhouse (Cambridge, MA, U.S.A.) 316
Study on the sequential activity and consecutive strong earthquakes in mainland China
Z.-S. Wang and T.-J. Zhong (Lanzhou, People's Republic of China) 343
On Poisson's ratio and composition of the Earth's lower mantle
J.P. Poirier (Paris, France) 357
Paleomagnetism and rock magnetism of Early Silurian Dunn Point volcanics, Avalon Zone, Nova Scotia
M.K. - Seguin, K.V. Rao (Québec, Canada) and E.R. Deutsch (Newfoundland, Canada) 369

Comment
A seismic event on August 20, 1983: double explosion or a single earthquake
R.C. Stewart (Brimpton, Gt. Britain) 381

Reply
A seismic event on August 20, 1983: double explosion or a single earthquake
S.K. Arora and T.K. Basu (Bombay, India) 384

Book reviews
The New Astronomy by N. Henbest and M. Marten—D.G. McCartan 388
Ferrohydrodynamics by R.E. Rosensweig—R.W. Chantrell 389
Wave Interactions and Fluid Flows by A.D.D. Craik—F.H. Busse 390
An Introduction to Seismic Interpretation by R. McQuillin, M. Bacon and W. Barclay—W. Ashcroft . 391
Landolt—Bornstein. Numerical Data and Functional Relationships in Science and Technology. Geophysics of the Solid Earth, the Moon and the Planets by K. Fuchs and H. Soffel (Editors)—P.L. McFadden 392
International Directory to Geophysical Research by W. O'Reilly (Compiler)—H. Soffel 394
Continuum Theories in Solid Earth Physics by R. Teisseyre (Editor)—D. Gubbins 394
The Nordic Seas by B.G. Hurdle (Editor)—L. Kristjansson 395
Essentials of Crystallography. Crystalline Solids by D. McKie and C. McKie—D.P. Thompson 397
Erratum 399
Contents of Volume 46 400
